Lacey, Washington 98503

Dear Mr. Johnson:

RE: UE-220395 –Avista Utilities Annual Energy and Emissions Intensity Report Update

On May 31, 2022, in compliance with WAC 480-109-300, Avista submitted its report of energy emissions and intensity metrics for calendar year 2021. Based on discussions with Commission Staff, Avista hereby resubmits its report of energy and emissions intensity metrics for calendar year 2021, which now includes new Table No. 6, the Company's ten year look back of its unknown resources, associated greenhouse gas emissions, and the percentage of load from unknown resources used to serve Washington customers. The appendices Avista provided with its original filing have not changed, and as such, are not included with this updated filing.

If you have any questions regarding this information, please contact John Lyons at 509-495-8515 or myself at 509-495-2782.

Sincerely,

/s/ Shawn Bonfield
