Re: Basin Disposal of Yakima, LLC - G-45 General Rate Filing

Attached please find Original Tariff No. 45, as well as supporting documentation for a general rate filing and price adjustment.

With this filing, we respectfully request the Commission approve a general rate increase to recover higher general operating costs and capital investment costs. We request this rate increase become effective May 1, 2023.

Basin Disposal of Yakima's last general rate filing was effective June 1, 2010.

The results of the Lurito-Gallagher Model indicate an increase of \$712,000 or 66.14% is needed. However, if approved by the Commission, this filing will result in an increase of approximately \$317,000 or 29.63%. This increase impacts approximately 2,000 residential, 650 commercial, and 60 drop box customers.

Included in this filing is our non-regulated operation, as our regulated and non-regulated operations share one facility and certain management costs. To protect certain non-regulated proprietary information, we are submitting this filing as confidential, and are filing in accordance with WAC 480-07-160.

A rate increase notification letter will be mailed to all customers affected by these proposed changes no later than March 31, 2023.

A copy of this letter is being sent to the Chairman of the Yakima County Board of Commissioners.

If there are any questions please contact me at 509-544-7709 or Francisco@BasinDisposal.com.

Yours truly,

Francisco Alcalá
