

CORRECTION: IMPORTANT NOTICE FOR PUGET SOUND ENERGY CUSTOMERS ABOUT CHANGES IN ELECTRIC AND NATURAL GAS RATES

On August 31, 2023, Puget Sound Energy (PSE) published notice of filed requests with the state Utilities and Transportation Commission (UTC) to adjust electric and natural gas rates effective October 1, 2023. In the Electric Rate Schedule table, the "Change" column incorrectly indicated that the percentage of change to each of the average rates per kWh was a percentage of increase. The correct percentage of change to each of the average rates per kWh is a percentage of decrease.

Puget Sound Energy (PSE) recently filed requests with the state Utilities and Transportation Commission (UTC) to adjust electric rates. The requested changes, effective on October 1, 2023, include:

- **Schedule 129 - Low Income Program:** An overall decrease in electric rates of 0.99% is requested to recover changes in the costs for the low income bill assistance program. Based on the proposed rates, a typical residential electric customer using 800 kWh per month would see an average monthly decrease of \$1.00. PSE requested these changes through the existing low income assistance mechanism previously approved by the UTC. The mechanism allows PSE to periodically adjust its electric and natural gas rates to reflect changes in actual sales and costs. The proposed adjustments would be in the Electricity charge listed on the electric statement.
- **Schedule 129D - Bill Discount Rate Rider:** An overall increase in electric rates of 0.46% to recover the costs for the Bill Discount Rate service available to low income customers beginning October 1, 2023. A typical residential electric customer using 800 kWh per month would see an average monthly increase of \$0.49. The proposed adjustments would be in the Electricity charge listed on the electric statement.

The proposed overall average changes for electric customers are as follows:
