Legend of Symbols

The following symbols are applicable to all tariff schedules and rules of the utility. These symbols will be used in the far-right margin on all pages where changes have been made to current tariff.

- D - Discontinued rate, service, regulation, or condition.
- N - New rate service, regulation, condition, or sheet.
- I - A rate increase.
- R - A rate reduction.
- C - Changed condition or regulation.
- K - That material has been transferred **to** another sheet in the tariff. (A footnote is required on the tariff sheet to identify the new sheet number)
- M - That material has been transferred **from** another sheet in the tariff. (A footnote is required on the tariff sheet to identify the former sheet number)
- T - A change in text for clarification.
- O - No change (This symbol is discretionary unless specifically requested by the commission).

WATER SERVICE
RULES AND REGULATIONS

Rule 1 – Adoption of Rules of Regulatory Authorities

The regulation rules pertaining to water service prescribed by the Washington Utilities and Transportation Commission (Commission) described in Revised Code of Washington (RCW) Title 80 and Chapter 480 WAC (Washington Administrative Code) are thereby adopted and made a part of this tariff.

Rule 2 – Schedules and Conditions

The schedules and conditions specified in this tariff for water service are subject to change according to the public service laws of the State of Washington. The amount of water furnished is subject to the Washington State Department of Health’s (DOH) required standards of quantity and quality. The water resources and water rights are subject to the Washington State Department of Ecology’s (DOE) required standards of issued permits for ground water withdrawal. All schedules for water service apply to applicants for our customers receiving water service from the Utility.

Rule 3 – Application and Agreement for Service

Each prospective customer desiring water service will be required to sign the Utility's standard form of application before service is supplied.

An application for service is notice that the prospective customer desires water service from the Utility and represents agreement to comply with the Utility's rules and regulations on file with the Commission and in effect at the time service is furnished. In the absence of a signed application for water service, the delivery of water by the Utility through a standard connection and the taking thereof by the customer will constitute an agreement by and between the Utility and the customer for the delivery and acceptance of service under the applicable rate schedule(s) and these rules and regulations. For new customers, a cross connection survey will be required as part of the application prior to accepting the applicant as a customer.

WATER SERVICE
RULES AND REGULATIONS

Rule 7 – Installation of Service Pipes and Meters

The Utility will construct service connections of a proper size from its distribution mains to the customer's property. The Utility reserves the right to refuse to construct a service connection to any property if the applicant's pipes are not properly constructed and protected.

'Utility Meter Installation' – The Utility may meter any flat rate service at its discretion, provided that metered rates are in effect. The Utility's metered service rates will become effective, after the customer has received thirty (30) days' written notice. All meters so placed will be installed and maintained by the Utility without direct retrofit charge to the customer.

'Customer Request Meter Installation' – A meter will be installed upon any flat rate service at the request of the customer, provided that metered rates are in effect, only if the actual cost of the meter and installation is paid by the customer. The amount paid will be reimbursed to the customer, by bill credit, by at least ten (10) percent of the meter and installation charge each month until fully repaid. All meters will be installed and maintained by the Utility without future charge to the customer. The charge and conditions for this service are specified in **Schedule 4**.

Rule 8 – Distribution Main Extension

'Utility Allowance' – Where elevation and construction conditions allow and one or more bona fide potential customer's* request a main extension, the Utility will construct and pay for the same if the Utility has sufficient capacity available to meet DOH standards of quantity and quality.

'Customer Prorate Share' – The cost of main extension, in excess of the estimated customer's revenue for three (3) years (Utility allowance), must be paid by the prospective customer in advance.

'Construction Contract' – No main extension will be considered as coming under this rule where the total cost of the main extension is greater than the estimated customer's revenue for six (6) years. Water main extensions and/or fire hydrants will be installed after contracts have been approved by the Commission pursuant to WACs for special contracts for water utilities and distribution extensions.

WATER SERVICE
RULES AND REGULATIONS

Rule 9 – Responsibility for, and Maintenance of, Services

‘Point of Delivery’ – The point at which water will be delivered to and received by the customer will be on the property line of the customer’s property at a point designated by the Utility.

The Utility will install its meter or other connection device at the Point of Delivery, except, at its option, the Utility may install its meter at some other agreed point on the property of the customer, provided that in such event the property line will nevertheless be deemed the Point of Delivery.

The customer will assume all responsibility after Point of Delivery for water supplied by the Utility. The Utility will be exempt from all liability for loss or damage caused by leakage or escape of water furnished by the Utility, after water has passed the Point of Delivery. If the customer has an Approved Backflow Prevention Assembly installed, the assembly must be tested annually by a certified Backflow Assembly Tester specialist.

All service pipes and fixtures on the customer’s side of the Point of Delivery shall be provided and must be maintained and protected from freezing at the customer’s expense. Where there are leaking or defective pipes or fixtures, the water may be turned off at the option of the Utility until properly repaired. The Utility may require any service to be equipped with freeze prevention devices to be used during cold weather conditions instead of permitting water to run continuously from faucets.
WAC 480-110-445

Rule 10 – Access to Premises

The Utility's regularly authorized agents or employees will have access to the premises of the customer at reasonable hours for meter reading, inspection, connection, disconnection, repair or removal of the Utility's property. Where the meter has not been read, a minimum bill will be rendered and adjusted when the next succeeding meter reading is available. After properly notifying the customer, the water Utility may discontinue service for refusing to allow access per WAC 480-110-305 and 480-110-355.

WATER SERVICE
RULES AND REGULATIONS

Rule 11 – Service Visit Charge

The customer will pay a Service Visit Charge as specified in **Schedule X** when:

- a. A Utility employee or agent is dispatched to the premise and the condition was caused by or was the responsibility of the customer.
- b. The Utility employee or agent has not had access to read the meter for at least two (2) billing cycles, and the Utility employee or agent is dispatched to access the meter and continues to not have access to the meter. Where the meter has not been read, a minimum bill will be rendered and adjusted when the next succeeding meter reading is available.
- c. In the event, that any such actions or time required exceed fifteen (15) minutes, the cost to the Company shall be assessed to the Customer. The work performed by the Company shall be billed at the hourly rate as established in **Schedule X** to be charged in 15-minute increments (rounded up) plus any materials. **Charges** shall be billed to the Customer on their next routine bill. Payment shall be due and payable after receipt of invoices.

Rule 12 – Interruption to Service

The Utility will make a diligent effort to render uninterrupted service and supply of water. In cases where shut-off is necessary for repair, reconstruction, damage prevention or similar cause, the Utility will give advance notice to its customers of such scheduled shut-off. However, the Utility will not be responsible for any damage that may result from any cessation of services such as above outlined, nor for failure to give notice of shut-off when circumstances are such that it is impossible to give notice as stated above.

WAC 480-110-365

Rule 13 – Bills

All bills shall be paid **monthly (bi-monthly)** in arrears and are due and payable upon receipt and are considered delinquent no less than fifteen (15) days (18 days if mailed from out of state) after the date mailed. Bills will be deemed received upon personal delivery to customer or three (3) days following the deposit of the bill in the United States mail to the customer's last known address. Where the meter has not been read, a minimum bill will be rendered and adjusted when the next succeeding meter reading is available.

WATER SERVICE
RULES AND REGULATIONS

Rule 17 – Discontinuance of Service

The Utility reserves the right to discontinue service to its customers for:

1. Unpaid bills, as provided for in this tariff.
2. Water uses for purposes or properties other than those specified in the customer's application for service.
3. Willful waste of water through improper or defective piping, equipment, or otherwise.
4. Piping or equipment that does not meet the Utility's standards or fails to comply with other applicable codes and regulations.
5. Tampering with the Utility's property.
6. Vacating the premises.
7. Nonpayment of any proper charges, including deposit, as provided in this tariff.
8. Refusing to allow access as required in commission Rules.
9. Violating rules, service agreements, or effective tariffs, including violation of outdoor watering instructions given to customers in order to curtail water use during time of shortage.
10. Use of equipment that detrimentally affects the Utility's service to its other customers.
11. Service obtained by fraud.
12. Failure to comply with cross connection control requirements, backflow assembly testing and inspection.

Discontinuance of service by a customer - Customer shall be required to give notice to the Utility of their intention to discontinue service.

WATER SERVICE
RULES AND REGULATIONS

Rule 18 – Sprinkling and Irrigation

Water used for sprinkling and irrigation must be paid for at the regular prescribed tariff rates for such service. The hours for such use will be as prescribed from time to time by the Utility, subject to protest by any customer affected and reviewed by the Commission. During peak use months (June through September), and at such other times when demand may be high, the Utility may prohibit or limit sprinkling and irrigation to preserve water for domestic consumption. No person will use water for sprinkling or irrigation purposes during any fire in the area, and all sprinkling or irrigation must be stopped immediately when a fire alarm is sounded. Water use may resume three (3) hours after the fire has been extinguished.

Rule 19 – Rates

Rates for water service and supply are those published in the Utility's tariff on file with the Commission. Unless otherwise stated in this tariff, the rates apply to a single service, to one customer at one premise. Water service must be subscribed to on an annual basis. No proration or reduction in billing is allowed unless this tariff proscribes temporary or seasonal rates.

When conditions require that two or more consumers with separate housekeeping establishments occupy the same or separate dwellings, be supplied through a *non-metered service*, consumers using water through a single connection are considered a single customer and will be charged the base charge as provided by the schedule of rates for the non-metered rate.

When conditions require that two or more consumers with separate housekeeping establishments occupy the same or separate dwellings, be supplied through *one metered service*, consumers using water through a single connection are considered a single customer and will be charged the base charge as provided by the schedule of rates for the size of meter installed. If the consumption as shown by the meter exceeds the allowance or usage blocks for the size of the meter, the excess consumption charge will be computed at the regular rates for one customer for the size of meter installed.

WATER SERVICE
RULES AND REGULATIONS

Rule 24 – Backflow Assembly Testing and Inspection

If the customer has an Approved Backflow Prevention Assembly installed, the assembly must be tested annually by a certified Backflow Assembly Tester (BAT) specialist. The Utility will maintain a list of certified BAT specialists that are acceptable to the Utility, and the customer may choose from any such BAT specialists on the Utility’s list, or the customer may elect the Utility to provide this service and charge the customer its current annual Backflow Assembly Testing and Inspection Fee listed on **Schedule X**. The Utility service for annual backflow assembly testing shall be subscribed to on an annual basis and is not subject to cancellation or reduction for partial periods.

The customer will provide a copy of the acceptable annual report from the BAT specialist. If the annual report is not provided within thirty (30) days of the anniversary date of the installation of the Approved Backflow Prevention Assembly, then the Utility will provide a notice of disconnection pursuant to WACs for discontinuing of service for water utilities. If a copy of the annual report is not received by the date for disconnection as specified in the notice, the Utility will disconnect customer’s service as specified in **Rule 17** of this tariff.

If service is disconnected, the Utility will charge the customer its current Reconnection Visit Charge as specified in **Rule 6** of this tariff.

RULES AND REGULATIONS

Rule 25 - Seasonal Turn Off/On

The Utility provides a seasonal turn off/on at the customer's request. This seasonal turn off/on charge does not stop monthly billings and charges on the customer's account. This service has an associated charge specified in **Schedule X** per visit. The seasonal turn off/on charge will be added to the customer's next bill.

The company request that the customer be present at the turning on of any service to avoid any water issues. This turn on service is only available for customers that have requested a seasonal turn off. This service will be performed during normal business hours only.

WATER SERVICE
RULES AND REGULATIONS

Rule 26 – Limitations of Liability

The Utility’s liability, if any, for its gross negligence, willful misconduct, or violation of RCW 19.122 is not limited by this tariff. With respect to any other claim or suit by a customer or by any other party, for damages associated with the installation, provision, termination, maintenance, repair or restoration of service, the Utility’s liability, if any, shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service, for the period during which the service was affected.

There shall be no liability for consequential or incidental damages. The Utility clearly disclaims all warranties, stated or implied, except those specifically set forth in this tariff, including, but not limited to implied warranties of merchantability and fitness for a particular purpose.

The charge for services rendered under this tariff are expressly based on the limitations of damages and disclaimer of warranties set forth above.

Rule 27 – Unauthorized Use of Service

Where service has been disconnected, either through the request of the customer or through action of the Utility, and the service, which includes but is not limited to the saddle, curb stop, piping, meter setter, angle stop, check valve, meter has been locked, authorized service cannot be restored without the Utility first reinitiating service.

If service is restored by the unauthorized removal of the meter setter lock or tampering, the customer receiving the unauthorized service will be charged the current replacement cost of all damages to the Utility’s property and service, plus a Service Visit Charge for inspection of damages in accordance with **Rule 11** in this tariff.

In addition, the Utility will charge the customer, receiving unauthorized service, the tariff rate for all service that the Utility estimates was taken plus all of the Utility’s costs resulting from the unauthorized use and all applicable fees pursuant to WACs for discontinuing of service for water utilities.

WATER SERVICE
RULES AND REGULATIONS

Rule 30 – Water Leak Procedures

When the Utility determines that a leak has occurred on the customer’s property, the Utility will adjust the customer’s original bill after the customer submits a bill from a plumber, contractor, or other evidence that the leak has been repaired. The Utility must re-calculate the customer’s bill for the ‘*relevant time period.*’ The ‘*relevant time period*’ for this adjustment will not exceed two (2) months for any given leak. The customer’s bill will be adjusted by:

1. Estimating the customer’s ‘*projected normal usage*’ charge during the relevant period(s) and calculating this amount according to the usage blocks and usage rate(s) shown on **Schedule 2.**
2. Calculating the ‘*excess usage*’ charge during the relevant period using one-fifth (1/5) the usage blocks and usage rate(s) shown on **Schedule 2.**
3. Crediting the difference between the original bill for the relevant period and the sum of the bills described in Steps 1 and 2.

‘Projected Normal Usage’ – as an estimate of what the customer’s water consumption would have been had there been no leak. This estimate will be based on the same period from the prior year.

‘Excess Usage’ – as the actual metered usage minus the projected normal usage.

Note: The credit described in this Rule is available to a customer only once every twenty-four calendar months.

SCHEDULE NO. 1
NON-METERED RATE SERVICE

Availability

This schedule is available in all Water Service Areas served by the Utility and at Utility’s option and capability to maintain Department of Health’s standards of quantity and quality.

Applicable

Applicable to each customer (single connection), where meters have not yet been installed.

Conditions

The flat rate charge for service is not subject to cancellation or reduction for seasonal or temporary periods unless seasonal rates apply per this tariff. Flat rate charge will be the monthly minimum bill for this class of service and will be in addition to other charges as provided in this tariff. No reduction in rates will be made on any dwelling unit served by a single non-metered connection unless all dwelling units served by a non-metered connection are vacant and the water is shut off at the connection point.

“Dwelling unit” means any building, or portion thereof, which contains one or more units (owned, used, rented, leased, let, or hired out to be occupied) that are served through a single non-metered connection.

Monthly Charge

Rate

Each connection of customer (single connection)

SCHEDULE NO. 2
METERED RATE SERVICE

Availability

This schedule is available in all Water Service Areas served by the Utility and at Utility's option and capability to maintain Department of Health's standards of quantity and quality.

Applicable

Applicable to each customer served by the Utility on a metered basis.

Conditions

The charge for this service is not subject to cancellation or reduction for seasonal or temporary periods, unless seasonal rates apply per this tariff. This charge will be the monthly minimum bill for this class of service.

All metered rate service base rate(s) have zero allowance for the water usage.
 Base rate charge(s) and water usage block(s) are modified by the meter size factor.

Usage rates for each block are shown per 100 cubic feet (cu.ft.).
 Billing for any block shall be calculated on a per cubic foot amount used and based on the usage rate charge of that block.

Monthly Charges

Each connection or customer.

Meter Size	Meter Size Factor	Base Rate	1 st Block (cu.ft.)	1 st Usage Rate	2 nd Block (cu.ft.)	2 nd Usage Rate	3 rd Block (cu.ft.)	3 rd Usage Rate

SCHEDULE NO. 3
READY-TO-SERVE (RTS) SERVICE

Availability

This schedule is available in all Water Service Areas served by the Utility and at Utility’s option and capability to maintain Department of Health’s standards of quantity and quality.

Applicable

To any property owner who has completed and signed a Water Service Application, paid all applicable fees required for meter service connection, and had Water Service Application accepted in writing by the Utility: and for whom the Utility has installed the direct connection from the water system to the applicant’s property line. Applicable to any customer, where meters have not yet been installed.

This class of service is considered temporary.

Conditions

The charge for this service is not subject to cancellation or reduction for seasonal or temporary periods unless seasonal rates apply per this tariff. This charge will be the monthly minimum bill for this class of service. At the time water service begins, the customer shall be transferred to Schedule 2, Metered Service.

The Ready-to-Serve charge may be discontinued upon receiving written requests from the customer or for non-payment of the Ready-to-Serve charge. Termination of the charge will allow the Utility to remove the service line and/or connection. This disconnection or removal will allow the Utility to make that available service capacity to supply other connections on the water system.

After a service line and/or connection has been removed for discontinued service, future service to the property will require a new application for service, payment of service connection charges, and will be subject to the availability of service capacity at such time as the future application for service is made.

Monthly Charge

Rate

Each connection or customer (single connection).

For Commission's Receipt Stamp

SCHEDULE NO. 4
SERVICE CONNECTION CHARGE

Availability

This schedule is available in all Water Service Areas served by the Utility and at Utility’s option and capability to maintain Department of Health’s standards of quantity and quality.

Applicable

Applies to all new applicants for properties not currently served and within the Commission Service Area (as defined in the tariff) for the Utility only when surplus system capacity is available, and a direct connection can be made to an existing main that has adequate hydraulic capacity.

Conditions

1. A charge will be made the first time a customer's service pipe, 3/4-inch or smaller, is connected from the Utility's main to the customer’s property line. This charge does not include the cost of a service meter, or its installation. A service meter will be furnished, installed, and maintained by the Utility without direct cost to the customer.
2. The Utility owns and maintains all materials involved in making a service connection.
3. The service connection charge must be paid before the water is turned on.
4. In addition, when it is necessary to cross an existing road (by boring or cutting) the cost of the crossing and road permit fees or other charges, will be in addition to the Service Connection Charge.
5. Service meter will be placed in a suitable meter box located at the customer’s property line, except when this is not practicable. The service meter will be installed upon the customer’s premises in some convenient location approved by the Utility where the service meter, will at all times, be accessible for reading, inspection, and testing. (See Rule 9 & 10)
6. Service Connections will be installed within seven (7) days from payment, unless prior arrangements in writing are agreed upon by both the customer and the Utility. At the time the service connection is installed, the customer shall be transferred to Schedule 3, Ready to Serve.
7. Any Service Connection larger than 3/4-inch service requires a ‘Labor and Material Contract.’
