Received Records Management Feb 21, 2024

RE: <u>Dockets UE-220053, UG-22054, and UE-210854 – Multi-Year Rate Plan and Performance Based Ratemaking Metrics Compliance Filing</u>

Dear Mr. Killip:

On February 14, 2024, in compliance with paragraph 99 and 193 of Final Order 10/04 in Dockets UE-220053, UG-220054, and UE-210854 (*Consolidated*), Avista Corporation, dba Avista Utilities (Avista or the Company), provided its 2023 Annual and Fourth Quarter 2023 Performance Based Ratemaking (PBR) metrics, as well as its 2023 Multi-Year Rate Plan metrics outlined in Table 8 of the Final Order. As previously noted, Avista's Operational Efficiency and Earnings metrics and certain PBR metrics, were not available for the original filing due to the metrics including confidential non-public information. The Company provides the accompanying supplemental filing, which includes certain Operational Efficiency and Earnings metrics, as well as the remaining Affordability and Capital Formation PBR Metrics.

Avista will file its remaining Operational Efficiency and Earnings metrics once its FERC Form 1 has been filed by the end of April. As such, the Company will supplement this compliance filing with the remaining 2023 non-public material information when available.

If you have any questions regarding this filing, you can contact me at 509-495-2782 or shawn.bonfield@avistacorp.com.

Sincerely,

151 Shawn Bonfield

Shawn Bonfield

Sr. Manager of Regulatory Policy & Strategy
