But part of our point here, too, your Honor, is that the company has claimed two different profiles on Yelp. And at the very least, we would ask that you admit JF-6-CX and JF-8-CX because that at least shows that the company has claimed two different Yelp profiles. Q And do you believe there's a need for their proposed schedule services in Bellevue? A I do, specifically because my clientele and a number of my colleagues' clientele use Bellevue,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Is that convenient for you and your clientele? A Absolutely. My clientele needs to move quickly and efficiently, and from time to time they need to go immediately. So 30-minute increments seems very normal. I've been to a lot of airports all over the world, and 30 minutes is a pretty standard time frame for a shuttle to pick up and drop off. So it makes perfect sense for that time frame to work. Q Is there anything else that you like about what Premier Airport Shuttle, also PNTS, offers in their shuttling services? A I think the safety aspect is important to me. They have a fantastic product in the sense that they're using Mercedes Sprinter vans. They're very clean. That style of transportation is very popular. It is a different kind of product than, you know, one of you know, some of the other providers. So I prefer that product, and I think it you know, my clients and my colleagues appreciate kind of the perception of that in terms of quality, and they appreciate that specifically in the product.

Q And what's your relationship with PNTS, also Premier Airport Shuttle? A I started using Capital Aeroporter about ten years ago, when it was a van service; searched online for Seattle Airport Shuttle, and selected the private van option. We have clientele, colleagues, people coming into town to look at our product, to potentially purchase land, and/or have development. So they need transportation.
