Address 1: ZIP/Postal Code 98236

Details

Comments Please defend the public interest and reject PSE's weak and woefully insufficient 2017 long-term plan. To meaningfully reduce its deleterious and destructive contribution to pollution and climate change, it must close its Colstrip plant completely by 2025 and exclude new fossil fuel infrastructure, including fracked LNG. Methane, a more potent greenhouse gas than carbon dioxide, leaks at every step of the fracking process, and other chemicals pollute and destroy drinking water.
