RE: PacifiCorp's Annual Renewable Portfolio Standard Compliance Report
Docket UE-190448

Dear Mr. Johnson:

In Order 01 of the above-mentioned docket, the Commission determined that PacifiCorp d/b/a Pacific Power & Light Company (PacifiCorp or Company) had complied with the 2019 renewable portfolio standard (RPS) target calculation and initial reporting requirements. The Commission ordered PacifiCorp to file a report no later than June 1, 2021, that listed the certificate numbers for every renewable energy credit (REC) that the Company retired in the Western Renewable Energy Generation Information System (WREGIS), along with details about which certificates were used for its voluntary renewable energy programs for 2019.

Staff Analysis of PacifiCorp's 2019 Final RPS Compliance Report

In its May 31, 2019, filing, PacifiCorp correctly calculated its 2019 RPS target of 367,669 MWh, and identified a mix of wind- and solar-based RECs from 2018, 2019 and, 2020 and incremental hydropower-based RECs from 2019 that it planned to use to meet this target. Table 1 below displays the mix of resources that PacifiCorp planned to deploy to meet the target.

Table 1: PacifiCorp's 2019 Renewable Resource Target and Compliance Plan

2019 Target (MWh)	Incremental Hydro (MWh)	Wind (MWh)	Solar (MWh)	Total Compliance Resources (MWh)
367,669	1,846	204,851	160,972	367,669

On July 20, 2021, PacifiCorp filed its revised final RPS compliance report for 2019. Commission Staff has reviewed the compliance report and determined that PacifiCorp has met its 2019 RPS target. Table 2 below details the resources PacifiCorp used to meet the target.
