Comments on PSE's CEIP from Nancy Murphy, Vashon, WA

I urge the UTC to take strong action now for a livable future. Please require PSE to include the following in their upcoming CEIP:

- 1) Reduce peak demand by requiring PSE to expedite and expand their Demand Response and Time Varying Rates programs.
- 2) Reduce price volatility and greenhouse gas emissions by requiring PSE to accelerate acquisition of new renewable clean energy resources.
- 3) Increase the resiliency of the electric system by requiring PSE to increase programs that encourage local solar and battery installations.
- 4) Reflect future capacity needs more accurately by requiring PSE to revise temperature modeling to reflect the changing climate and then resubmit their CEIP.

Thank you, - Nancy Murphy
