Re: Correction to Washington Utilities and Transportation Commission's Attachment to its Letter Acknowledging Puget Sound Energy's 2017 Electric and Natural Gas Integrated Resource Plan, Docket UE-160918 & UG-160919

Dear Mr. Piliaris:

The Washington Utilities and Transportation Commission issues this letter and Revised Attachment to correct two factual errors in its original Attachment to Puget Sound Energy's 2017 IRP Acknowledgment Letter.

The first error, found on page 2, misstates PSE's annual peak and energy growth of PSE's 20-year electric load growth projection 2018-2037.

The second error, found on page 4, concerns the description of the timing of the need for and use of the Tacoma LNG Facility and the forecasted buildout of the local distribution system.

The corrections are noted in redline strikethrough in the Revised Attachment. We apologize for any inconvenience this may have caused. For questions regarding this matter please contact Brad Cebulko (360) 6640-1309 or Bradley.Cebulko@utc.wa.gov.

Sincerely,

MARK L. JOHNSON
Executive Director and Secretary

Revised Attachment - UTC Comments on Puget Sound Energy's 2017 IRP
