**Re: UE-190529 & UG-190530 Puget Sound Energy Workpapers**

Dear Mr. Smith:

Several weeks ago, in the above-referenced docket, the Washington Utilities and Transportation Commission Staff requested that Puget Sound Energy (“PSE”) provide the Records Center with an electronic file transfer link containing revised workpapers PSE had distributed to the docket parties on August 2, 2019. In accordance with that request, we transmitted the workpaper files to the Records Center via electronic file transfer link. It appears, however, that the Records Center did not receive the files.

Enclosed is a CD containing the following items in the above-noted dockets:

1. A folder titled “8-2-2019 Revised Workpapers” containing the revised workpapers PSE had attempted to transfer to the Records Center previously. Please be advised that this folder contains Confidential documents that should not be posted online.
2. A folder titled “9-23-2019 Supplemental Workpapers” containing supplemental workpapers supporting PSE’s prefiled supplemental direct testimony filed on September 17, 2019. Please be advised that this folder contains Confidential documents that should not be posted online.
3. One additional workpaper file that was inadvertently omitted from PSE’s original workpaper submission in early July.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

David S. Steele
