Tenino Telephone Company
FCC Form 481 (July 2014), Line 112
Five-Year Service Quality Improvement Plan
pursuant to 47 C.F.R. § 54.313(a)(1) Per Instructions
for Completing FCC Form 481

The five year plan that is set out below is the company's projection of what will occur over the course of the next five years. The plan may be affected by any number of factors. One such factor is the availability of financing on reasonable terms and conditions for the projects that are described in the five year plan. Another is the availability of materials and supplies. Plans are also subject to obtaining building or construction permits, in some cases rights-of-way, and other factors. The company has no control over the permitting process. Nor can the company be certain that rights-of-way will be available on reasonable terms and conditions. Other factors outside of the control of the company may also affect the five year plan. For example, severe weather, accidents or earthquakes are items that may affect the priority for projects listed in the five year plan. If, for example, severe weather damages existing facilities, it may be necessary for the company to refurbish or rebuild existing facilities rather than continue or engage in a project listed in the five year plan. The foregoing list of factors which can affect the five year plan is meant to be illustrative and is not exhaustive. It should also be noted that the projects are not listed in any order of priority. Priority will be determined on a case-by-case basis. As a result, there is no set time-line for a particular project, although it is currently anticipated that each listed project will be undertaken during the five years covered by the plan. With those caveats, the five year plan represents the company's current, reasonable estimate of the projects it will undertake as described in the five year plan.

Tenino Telephone Company
FCC Form 481 (July 2014), Line 510
Description of Processes and Procedures to Ensure
Compliance with Service Quality Standards and
Consumer Protection Rules Per Instructions
for Completing FCC Form 481

This document details the processes and procedures that Tenino Telephone Company (the "Company") follows to ensure compliance with service quality standards and consumer protections rules as set forth in the Instructions for Completing FCC Form 481.

For service quality standards that are affected by plant issues, the Company engineers and installs its plant and other facilities in such a way as to ensure, to the greatest extent possible, compliance with service quality standards that exist at the time that the plant and facilities are constructed. Plant is augmented, upgraded and/or reconfigured as service needs evolve.

In addition, Company employees are periodically briefed on issues involving service quality standards and consumer protection rules. In particular, if any set of issues appear to be prevalent, employees are given briefings on how to handle such issues. A recent example is the call completion problems that have arisen and the customer calls that are generated as a result. Although this is not a service quality problem caused by the Company, it does affect customers of the Company and, therefore, deserves the attention of the Company employees.

The Company also periodically reviews its operating procedures to be sure that those operating procedures are in compliance with service quality standards and that the operating procedures are not in violation of consumer protection rules. If questions arise, legal counsel is sought as needed.

If a complaint pertaining to the Company's compliance with service quality standards or consumer protection rules is received by the Company, the complaint is promptly investigated, the matter tracked and any corrective action noted. This process ensures that issues involved in the matter are addressed and corrections made, if needed. It should be noted that the Company has received no customer complaints in the past five years regarding service quality standards or consumer protection rules as they relate to the service offered by the Company other than call completion issues, which, as noted above, are not caused by the Company.

Tenino Telephone Company
FCC Form 481 (July 2014), Line 610
Statement Describing Ability to Function
in Emergency Situations Per Instructions
for Completing FCC Form 481

At line 600 of FCC Form 481, Tenino Telephone Company (the "Company") certified that it is able to function in emergency situations as set forth in 47 C.F.R § 54.202(a)(2). This means that the Company has a reasonable amount of back-up power to ensure functionality without an external source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. This statement describes how the Company is prepared to provide continued service in an emergency situation.

The Company has back-up batteries that provide service for its central office during a commercial power outage, with the capacity to function for at least eight hours. In addition, there is a diesel-powered generator available. The generator automatically starts during any power outage or spike in the commercial power that powers the central office and business office. Further, the Company has propane generators installed at all but one of its remote sites. The one remote site that does not have an installed generator is supplied with a portable generator for use in the event of a commercial power outage.

The Company has route redundancy and diversity for interexchange access service, E-911 trunking and SS7 signaling circuits.

The Company's outside plant is primarily buried and, thus, protected from most weather events. The Company's central office switch capacity is engineered to accommodate traffic spikes, and its interexchange facilities also have the capacity to provide additional circuits for interexchange carriers should the need arise.

In the case of isolated groups of customers that may suffer damage due to a cable cut, the Company maintains sufficient staff and other resources to be able to put customers back in service in a very short amount of time. The Company's emergency service equipment is located within its exchange and requires very little time to dispatch.

**Tenino Telephone Company
FCC Form 481 (July 2014), Line 1223
Voice Services Comparability Report
for Completing FCC Form 481**

Pursuant to 47 C.F.R. § 54.313 (a) (10) Tenino Telephone Company (Tenino) is in compliance with the requirement that voice services is no more than two standard deviations above the national average urban rate for voice service of \$46.96 as specified in Public Notice DA 14-384 issued on March 20, 2014. Tenino's current total local end-user rate¹ of \$14.00 (which includes a local fee of \$14.00, no mandated state fees and no mandatory extended area service charges) is not above the standard deviation as specified in the USF/ICC Transformation Order.²

¹ Local End User Rate as defined in USF/ICC Transformation Order 26 FCC Rcd at 17751, Para. 238

² USF/ICC Transformation Order, 26 FCC Rcd at 17694, Para. 84 (footnote included) "The standard deviation is a measure of dispersion. The sample standard deviation is the square root of the sample variance. The sample variance is calculated as the sum of the squared deviations of the individual observations in the sample of data from the sample average divided by the total number of observations in the sample minus one. In a normal distribution, about 68 percent of the observations lie within one standard deviation above and below the average and about 95 percent of the observations lie within two standard deviations above and below the average."

SCHEDULE 49

WASHINGTON TELEPHONE ASSISTANCE PROGRAM

The Company participates in the Washington Telephone Assistance Program ("WTAP"), as provided in RCW 80.36.410 through .470, and Chapters 480-122 and 388-273 of the Washington Administrative Code (collectively the "WTAP laws"), offers to eligible subscribers the WTAP and applies to switched access lines within its exchange area the excise tax related to the WTAP described therein.

Subscribers eligible to participate in the WTAP, as well as certain subscribers eligible to participate under rules of the Federal Communications Commission, may also be eligible for the Lifeline service offering ("Lifeline service") under Subpart E of Part 54 of Title 47, Code of Federal Regulations ("CFR"). Within the service area for which the Company is designated as an "eligible telecommunications carrier" pursuant to Subpart C of Part 54 of Title 47 CFR, the Company offers Lifeline service to qualifying low-income consumers.

Lifeline service is a non-transferable retail local service offering that is available only to qualifying low-income consumers and for which qualifying low-income consumers pay charges that have been reduced in accordance with Subpart E of Part 54 of Title 47 CFR and, to the extent applicable, the WTAP laws. In addition, for "eligible residents of Tribal lands," as defined in § 54.400 of Subpart E of Part 54 of Title 47 CFR, the Company's Lifeline service charges are further reduced in accordance with Subpart E of Part 54 of Title 47 CFR.

The Company's offering of Lifeline service includes "toll limitation" only in the form of "toll blocking" (and not "toll control"), as those terms are defined in Subpart E of Part 54 of Title 47 CFR. "Toll blocking" is available with respect to Company-provided Lifeline service at no Company charge to the Company's subscriber to such Lifeline service.

On the issue date of this tariff sheet, "toll blocking" is defined in § 54.400 of Subpart E of Part 54 of Title 47 CFR, as "a service provided by an eligible telecommunications carrier that lets subscribers elect not to allow the completion of outgoing toll calls from their telecommunications channel." "Toll blocking" does not necessarily result in the blocking of collect calls to the subscriber's telephone line or the blocking of calls billed from another location to the subscriber's telephone line.

W.D.P.U. No. 1

FIRST REVISION OF SHEET NO. 70.1
CANCELING ORIGINAL SHEET NO. 70.1

TENINO TELEPHONE COMPANY

SCHEDULE 49 (Continued)

WASHINGTON TELEPHONE ASSISTANCE PROGRAM (Continued)

If the service area for which the Company is designated as an "eligible telecommunications carrier" pursuant to Subpart C of Part 54 of Title 47 CFR includes any "Tribal lands," as that term is used in § 54.413 of Subpart E of Part 54 of Title 47 CFR, then, with respect to such "Tribal lands," the Company also offers "Tribal Link Up," as defined in § 54.413 of Subpart E of Part 54 of Title 47 CFR to "eligible residents of Tribal lands," as defined in § 54.400 of Subpart E of Part 54 of Title 47 CFR. Tribal Link Up provides, under certain circumstances, (i) a reduction of the customary charge for commencing telecommunications service and (ii) other benefits pertaining to such charge and to interest charges, if any, that may apply thereto, all as specified more fully in Subpart E of Part 54 of Title 47 CFR.

The availability of the telephone assistance programs described in this schedule, or any of them, to any otherwise eligible subscriber or applicant may be subject to such subscriber or applicant granting his or her written consent to disclosure and/or transmission by the Company of certain information pertaining to that subscriber or applicant, including, but not necessarily limited to, his or her name, other subscriber- or applicant-identifying information, the service address to which the relevant telephone assistance program service is being applied for and/or is being furnished, the specific assistance program in which the subscriber or applicant participates or has applied to participate, and the date or dates of such participation or requested participation, all in accordance with the WTAP laws and/or Subpart E of Part 54 of Title 47 CFR.

Doing Business With Us

TELEPHONE INFORMATION

❖ Eligible Telecommunications Carrier

Tenino Telephone Company has been the local telephone company serving the Tenino and Bucoda areas since approximately 1905. During the intervening years, we have worked hard to build a telephone system that would provide high quality telecommunications service to the communities we serve. We have done this, notwithstanding the higher cost of serving areas in the State of Washington and when few, if any, other telephone companies are interested in serving our communities.

We have served and intend to continue to serve both residential and business customers in our service area with high quality telecommunications services at attractive and affordable rates.

In addition to our basic telephone services, we offer throughout our service area advance telecommunications service including Internet access, high speed data services, special calling features and voice mail.

The basic services offered by Tenino Telephone are comprised of several components. At a minimum, these include:

Services offered

Single party, voice grade access to the public switched network, including an unlimited amount of local usage (basic grade of service)

Monthly Charge
Residence \$14.00 Business \$21.00

Dual tone multi-frequency signaling or its functional equivalent (i.e., tone dialing)
No additional charge.

Access to emergency 911 services

There is no additional charge by Tenino Telephone Company to end user customers for the ability to access emergency 911 services. ****

Access to operator service

There is no additional charge by Tenino Telephone Company for the ability to call the operator. However, the call may involve a charge depending on the service requested and the rates of the company whose operator handles the call.

Access to inter-exchange (long distance) services

There is no additional charge by Tenino Telephone Company to end-user customers for the ability to place and receive calls through long distance networks of inter-exchange carriers that offer service through our network. However, the call may involve a charge from the inter-exchange (long distance) carrier depending on the type of the call.

Access to directory assistance

There is no additional charge by Tenino Telephone Company to end user customers for the ability to call Directory Assistance. However, the call may involve a Directory Assistance charge, the amount of which depends on the area called and the rates of the company whose operators accessed.

Toll limitations service for qualifying low-income customers

There is no additional charge by Tenino Telephone Company to qualifying low income consumers for toll blocking service. Qualifying low-income customers are generally those participating in the Lifeline program.

Lifeline and Link-Up Programs

Tenino Telephone Company participates in the federal Lifeline and Link-up programs, as well as the Washington Telephone Assistance Program ("WTAP"). Under these programs, Tenino Telephone Company offers to qualifying low-income customers a discount off of the monthly rate for basic residential exchange service and a discount off of the non-recurring charge to install a basic residential exchange service line. For service on non-tribal reservation lands, Tenino Telephone Company current discounted monthly rate for Lifeline residential service is \$8.00 while the installation charge for such service may be discounted under the Link-Up program and WTAP by up to \$60.00*. Additional discounts may apply for service to qualifying low-income customers on tribal property.

*The charges set forth are subject to change, and in some instances are subject to change without notice. Certain non-recurring charges may also apply to installation or change of service. **Applicable Federal, State, County and municipal taxes and surcharges, including a federally-mandated end user surcharge per line are in addition to these amounts. *** Discounts off of this rate are available to qualifying low-income customers. ****State and County taxes apply per line to fund the provisions of this capability.

These services are available to all qualifying subscribers of Tenino Telephone Company. The charges for these services are reflected each month on our normal telephone bill and may be accompanied by charges for services provided by Tenino Telephone Company. The services listed above are those that Tenino Telephone Company offers and must advertise in order to be eligible for federal support funds that are used to help offset the high cost of serving rural areas and bringing affordable telephone service to residents and businesses in rural areas. Other services are available by contacting Tenino Telephone Company's business office at 264-2915.
