3. The administrative rules at issue are WAC 480-07-340, -355.
  
4. NWECC is a non-profit alliance of more than one hundred environmental, civic and human services organization; utilities; businesses; labor unions; and communities of faith in the Pacific Northwest. Our members are listed in Attachment A; many have a substantial interest in Puget Sound Energy's (PSE's) proposed Electric Schedule No. 451: Large Customer Retail Wheeling, filed on October 7, 2016. PSE's proposed tariff revisions could directly affect our members as well as the individual members of those organizations, as direct customers and participants in utility programs, that may be impacted by this change. Accordingly, NWECC respectfully requests to intervene in this proceeding to represent its members who would be affected by any change to PSE's rates. NWECC, as the primary entity monitoring utility implementation of the Clean Energy Initiative (I-937) is also concerned with matters relating to PSE's state regulatory requirements under the Clean Energy Initiative and how those requirements will be impacted by the proposed actions in this filing.
  
5. As described, NWECC has a direct and substantial interest in this proceeding that will not be adequately represented by any other party and may be affected by any Commission determination made in connection with this proceeding. NWECC's participation will not broaden the issues or burden the record in this proceeding; it is in the public interest to allow NWECC to intervene in this proceeding.

6. NWECC respectfully petitions the Commission for permission to intervene in this proceeding.

Respectfully submitted October 28, 2016,

/s/ Joni Bosh
