RE: *In the Matter of PacifiCorp, d/b/a Pacific Power & Light Company's Renewable Portfolio Standard Report Under RCW 19.285.070 and WAC 480 109 210, Docket UE-190448*

TO ALL PARTIES:

The Energy Independence Act (EIA)¹ requires qualifying electric utilities to obtain certain percentages of their electricity from eligible renewable resources. The Washington Utilities and Transportation Commission (Commission) enforces compliance with the EIA by investor-owned utilities, including PacifiCorp, d/b/a Pacific Power & Light Company (Pacific Power or Company).² The Commission has implemented these requirements by establishing a two-step compliance process.³ Because a utility may comply with its renewable portfolio standards (RPS) obligation by using renewable energy credits (RECs) acquired in the year after the target year, ultimate compliance for 2019, for example, can be demonstrated as late as June 1, 2021.

On September 12, 2019, the Commission entered Order 01, Order Approving Compliance with Eligible Renewable Energy Target Reporting Requirements for 2019 (Order 01). Among other things, Order 01 required Pacific Power to file its final compliance report no later than June 1, 2021.

On May 25, 2021, Pacific Power filed with the Commission its final RPS report for 2019, and on July 20, 2021, Pacific Power filed a revised final RPS report.

On July 22, 2021, Commission staff (Staff) filed a letter stating that it had reviewed the report. In its letter, Staff stated that it believes the Company has fully complied with Order 01.

¹ RCW Chapter 19.285.

² RCW 19.285.060(6).

³ WAC 480-109-210(1) and (6).

The Commission has reviewed the Company's report, acknowledges that the report complies with Order 01, and finds that Pacific Power is in compliance with the requirements of the EIA for 2019.

MARK L. JOHNSON
Executive Director and Secretary
