To Whom it may concern,

To clear up any questions, a brief explanation. After applying for and receiving my temporary Household Goods permit with intentions to open for business, I lost my "Investor" who was to buy truck and provide all equipment needed (dollies, pads, packing material). I was unable to conduct business and remained at my previous place of employment. I would like to keep my authority however because I do plan on operating later in Summer.

Thank you
Wade Taylor
