Washington Utilities and Transportation Commission
Chandler Plaza Building
1300 S. Evergreen Park Drive SW
P.O. Box 47250
Olympia, WA. 98504-7250

Subject: Waste Management of Ellensburg, a division of Waste Management of Washington, Inc. (G-237); Tariff No. 12

Enclosed herein, you will find our new Tariff No.12 for the above-referenced company. This tariff replaces Waste Management of Ellensburg Tariff No.11. In this new tariff, we are requesting adjustments to our rates attributed to increased disposal, maintenance, labor, fuel and other operating and administrative costs since our last general rate increase. This company received its last general rate increase on November 1, 2009 nearly five years ago. This new tariff, if approved by the commission, would increase Company revenue by approximately \$140,000 and collectively, residential and commercial rates by 6.2%. This new tariff is being filed with a proposed effective date of October 1, 2014.

Enclosed for your review are electronic copies (excel) of our workpapers related to the rate filing, including a legend for the tabs that clearly identifies where various financial analyses are located to facilitate the auditor's review.

Please note that our filing includes certain information that contains valuable commercial information and is therefore presented in accordance with the procedures established in WAC 480-07-160. Enclosed are electronic versions of confidential materials (excel), with the first page of the file, and each page that contains confidential information marked appropriately. A CD of our redacted workpapers and our confidential unredacted workpapers in Adobe Acrobat format which was too large to submit through the web site will be mailed to achieve compliance with WAC 480-07-140(6). In addition, a paper copy of the confidential and redacted workpapers will be submitted by mail as well.

A rate case checklist confirming compliance with the requirements of WAC 480-07-520 is included in the workpapers. In addition, enclosed is a "Petition for Rule Exemption", seeking the Commission's approval to file workpapers that vary from a strict interpretation of the general rate filing regulations. This request seeks an exemption for workpapers similar to that which has been approved by the Commission under exemptions granted to Waste Management of Washington, Inc. in its eight most recent general rate increase filings.

Sample customer notices are also enclosed. Customer notices will be mailed on or before September 1, 2014. In addition, a copy of this transmittal letter was mailed to Kittitas and Grant Counties on August 15, 2014.

If you have any questions or need additional information, please contact me at (425) 814-7840.

Respectfully,

Michael A. Weinstein
