DOCKET TG-161159

ORDER 01

ORDER GRANTING EXEMPTION
FROM RULE AND ALLOWING
RECYCLABLE COMMODITY
CREDIT ADJUSTMENT

BACKGROUND

1 On October 24, 2016, Torre Refuse & Recycling, LLC dba Sunshine Disposal & Recycling (Torre or Company) filed with the Washington Utilities and Transportation Commission (Commission) revisions to Tariff 3 to recover the increased cost of disposal fees, an increased commodity credit, and requested an exemption from WAC 480-70-520 (4), work paper filing requirements. On November 16, 2016, the Company filed revised tariff pages. The Company serves approximately 6,000 customers in Spokane. The Company's last general rate increase became effective on July 1, 2013.

Disposal Fee increase

2 On January 1, 2017, the City of Spokane will increase disposal fees from \$105.36 per ton to \$108.41 per ton at the Spokane Waste to Energy facility. Commission Staff's (Staff) analysis shows that the Company's proposed rate increase to recover these increased fees would generate approximately \$24,000 (.7 percent) additional annual revenue and become effective January 1, 2017.

3 A disposal fee increase falls within the definition of a general rate increase pursuant to WAC 480-07-505. WAC 480-07-520 lists the minimum required information the Company must provide in a general rate increase filing. The Company provided information pertinent to the disposal fee increase but did not provide the remainder of the information required by the rule and requested an exemption from the work paper filing requirements of WAC 480-07-520(4).

4 WAC 480-07-110 allows the Commission to grant an exemption from or modify the application of its rules if consistent with the public interest, the purposes underlying regulation, and applicable statutes. See also WAC 480-70-051.

5 Staff reviewed the proposed tariff request together with other factors and recommends the Commission allow the tariff to become effective by operation of law, and grant the Company an exemption from WAC 480-07-520(4), work paper filing requirements for this filing for the following reasons:

- (a) There have not been any significant changes since the last rate case that became effective on July 1, 2013. Reviewing the rate case documents, customer numbers are relatively unchanged, inflation has been low, and the Company has not changed its collection methods.
- (b) The increased disposal fees are set by City of Spokane and are required as a part of the Company's operations.
- (c) The Company's financial information supports the proposed revenue requirement and the proposed rates.
- (d) Staff concluded the proposed rate increase, by reason of the increase in disposal fees, is fair, just, and reasonable.

Recyclable Commodity Revenue Adjustments

6 Torre also filed to increase recycling credits from \$.00 per month to \$.02 per month for single-family customers in Spokane County.

7 The recyclable commodity revenue adjustments reflect the revenue the Company receives from the sale of recyclable materials collected from single-family customers and is adjusted annually pursuant to a deferred accounting mechanism. Staff has reviewed the proposed changes and recommends the Commission take no action on the tariff revisions implementing the recyclable commodity revenue adjustments, and allow them to become effective January 1, 2017.

DISCUSSION

8 The Commission concurs with Staff's recommendation. The purpose of the work paper filing requirements in WAC 480-07-520(4) is to provide the Commission with information to determine whether a proposed rate increase is fair, just, reasonable, and sufficient. Here, the Company has provided sufficient information to enable the

Commission to make that determination, and providing the additional information the rule requires would be unnecessary and unduly burdensome. Accordingly, an exemption from this requirement for purposes of the filing in this docket is consistent with the public interest and the purposes underlying the rule and should be granted.

FINDINGS AND CONCLUSIONS

- 9 (1) The Washington Utilities and Transportation Commission is an agency of the State of Washington vested by statute with the authority to regulate the rates, rules, regulations, practices, and accounts of public service companies, including solid waste companies.
- 10 (2) Torre is engaged in the business of providing solid waste services within the state of Washington and is a public service company subject to Commission jurisdiction.
- 11 (3) Torre is subject to the filing requirements of WAC 480-07-520, for general rate increase proposals. The Company requested an exemption from WAC 480-07-520(4) and did not file the work papers required by WAC 480-07-520(4).
- 12 (4) This matter came before the Commission at its regularly scheduled meeting on December 8, 2016.
- 13 (5) An exemption from the general rate increase filing requirements set forth in WAC 480-07-520(4) for the filing in this docket is in the public interest and is consistent with the purposes underlying the regulation and applicable statutes and should be granted.
- 14 (6) It is in the public interest to allow the revisions to Tariff 3 filed on October 24, 2016, and revised on November 16, 2016, to become effective on January 1, 2017, by operation of law.

ORDER

- 15 **THE COMMISSION GRANTS** Torre Refuse & Recycling, LLC dba Sunshine Disposal & Recycling's request for an exemption from WAC 480-07-520(4), for purposes of the tariff revisions filed in Docket TG-161159 on October 24, 2016, and

revised on November 16, 2016, and to allow the commodity credit filed on October 24, 2016, and revised on November 16, 2016, to become effective January 1, 2017.

The Commissioners, having determined this Order to be consistent with the public interest, directed the Secretary to enter this Order.

DATED at Olympia, Washington, and effective December 8, 2016.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

STEVEN V. KING, Executive Director and Secretary
