Dear Mr. Danner:

I am writing in support of Bellair Airporter Shuttle's requested extension of its authority from the WUTC to pick up passengers that live in the Everett area. Approval of this authority is needed in this community and will specifically have a positive impact on the Snohomish County Department of Human Services – Behavior Health.

Regularly, my office provides transportation support to our law enforcement embedded social worker team. Because of the service Bellair Airporter Shuttle provides we are able to transport team members where we have encountered challenges finding suitable transportation. Having a regular stop in Everett will be greatly welcomed by staff, who can depart much closer to the office instead of having to drive to Tulalip – ultimately reducing travel time and increase time in the field.

We are truly excited about the possibility of Bellair Airporter Shuttle's extension of authority into Everett and look forward to using the service in the future.

Sincerely,

Irene Slagle

SUBJECT: Bellair Airporter Shuttle Extension of Authority

Dear Mr. Danner,

I am voicing my support for Bellair Airporter Shuttle to receive approval to extend its service into Everett.

In respect to our community, it will provide a valuable transportation option to community members. This needed option will support citizens of Everett. Additionally, this new shuttle stop will increase use of Paine Field due to its convenient location in town, decreased shuttle time between the shuttle stop and the airport, as well as more travelers across the state utilizing the airport because of the multiple routes run by Bellair Airporter Shuttle.

Excited about all the benefits this approval will provide to the City of Everett as well as Paine Field, we are eager for approval to be granted so service out of Everett can begin.

Thank you so much!

Hi, Mr. Danner -

I was just informed about the possibility of Bellair Airporter Shuttle being approved to make Everett a regular shuttle stop on their daily trips to Sea-Tac Airport. As a current resident of Everett, I am incredibly excited to write in support. Of Bellair Airporter Shuttle being given the authorization to do just that in the near future.

The service provided by Bellair Airporter Shuttle has been invaluable to me. The only difficulty I found when using Bellair to get to Sea-Tac Airport was finding a way to and from their current stop at the Tulalip casino. Knowing I will be able to hop on and off in Everett when this is approved will be amazing. It will be of great value to myself and the rest of the community.

I'm looking forward to hearing that Everett is officially a Bellair Airporter Shuttle stop so I cannot only utilize and enjoy the ride more, but so I can start telling all my friends and family about this valuable and needed service now available in our city.

Thank you so much for this exciting possibility!
