Re: UG-220664-Pipeline Replacement Cost Recovery Mechanism in Accordance with Commission Order 09 in Docket UG-210755.

Dear Ms. Maxwell:

On September 1, 2022, Docket UG-220664, Cascade Natural Gas Corporation (Cascade) filed with the Washington Utilities and Transportation Commission its annual Cost Recovery Mechanism (CRM) filing which propose changes to the tariff sheet effective October 1, 2022.

Within the cover letter and bill impact workpaper, Cascade inadvertently picked up the wrong change in rate to calculate the proposed effects on an average customer bill.

This filing represents an overall decrease in revenue of \$655,498 or 0.07 percent. The corrected bill impacts show an average residential customer using 54 therms per month will see a bill decrease of \$0.13 per month or 0.21 percent.

The following file is electronically submitted as part of this filing:

• UG-220664-CNGC-CRM-Impact-WP-09.01.22r.xlsx

If there are any questions regarding this update, please contact me at 208.377.6015.

Sincerely,
