Lacey, Washington 98503**Re: 2023 Public Participation Plan Update – Clean Energy Implementation Plan  
Docket UE-210297**

Dear Ms. Maxwell:

Pursuant to the Washington Utilities and Transportation Commission rules under (WAC) 480-100-655(2) attached for filing is Puget Sound Energy's ("PSE") Public Participation Plan Update (Plan Update) for the 2021 Clean Energy Implementation Plan for the period of May 2023 to April 2025. This Plan Update builds upon the original public participation plan for the period of January 2022 to April 2023 which was filed along with PSE's 2021 Clean Energy Implementation Plan on December 17, 2021.

The attached Plan Update outlines PSE's objectives, proposed schedule for public participation activities, and the tools to engage customers and community members, with an emphasis on named communities. Included with the Plan Update is Appendix A which provides a crosswalk between document sections and relevant requirements.

This Plan Update expands opportunities for PSE to better understand the broader scope of our customers' values, priorities, and perspectives around clean energy and equity. It also illustrates how PSE is designing public participation in an equitable and accessible manner.

If you have any questions about the information contained in this filing, please contact Kara Durbin, Director, Clean Energy Strategy, at (425) 456-2377. If you have any other questions, please contact me at (425) 456-2142.

Ms. Amanda Maxwell, Executive Director and Secretary
