Commissioners,

I use Whidbey SeaTac Shuttle monthly and have been told that the actions of your committee are threatening a reduction in the shuttle service to Whidbey Island. How dare you try to put the little guys out of service so I have to use the public transport bus and five hours to get to airport, just to support “government must run everything of Mary Margaret Haugen”. I use shuttles in other parts of the county and find that they are around half the cost here in Washington and they currently charge me less than the gas I would use to drive myself. If you were doing your job you would leave the local companies alone and stop blanket approving the rate increases of the big corporations of PSE and Cascade gas and protect the residents like you suppose to do.

Thanks for nothing,

James Johnson
