040 Please refer to PacifiCorp’s Report, page 14, where the Company states: “The Company does not have a specific reporting process that provides a summary of all the facilities that were paid for or provided by customers through a line extension.” Given this statement, please explain how the Company: a) was able to determine that “Pacific Power’s ratepayers paid \$38,388 for the cost to install the conduit and vaults” on Club property, as stated by Ms. Mishoe in the Complaint of the Walla Walla Country Club (“Complaint”), Exhibit (“Exh.”) E, page 2; and b) is able to verify that the Club did not pay for some or all of the \$38,388 cost stated by Ms. Mishoe.

RESPONSE: In the circumstance of a line extension, customers often install certain facilities without advising Pacific Power of the associated cost. Obviously, Pacific Power knows the costs for materials and labor it provides when completing a line extension. In this particular circumstance, as stated by Ms. Mishoe, those costs totaled \$38,388.
