Subject: Comments: Docket T-101661 and Docket A-042090

March 26, 2011

Washington Utilities and Transportation Commission

Olympia WA

PLEASE DOCKET T-101661 and A-042090

Commissioners:

Whidbey SeaTac Shuttle is an efficient, reliable service. How ironic that a gasoline surcharge is the issue of contention. Whidbey SeaTac Shuttle saves many individual car trips, much fuel, and more carbon imprints every single day. If Whidbey SeaTac Shuttle feels that a fuel surcharge rather than a rate increase gives the company a competitive edge, that is their choice. Please return your attention to Governor Gregoire's Executive Order 10-06. The surcharge does not increase profits but rather covers costs. Please be considerate of Washington residents needs as well as your duty to regulate. We need Whidbey SeaTac Shuttle service. Thank you.
