

December 29, 2005

Re: *In the Matter of the Review of: Unbundled Loop and Switching Rates; the Deaveraged Zone Rate Structure; and Unbundled Network Elements, Transport, and Termination (Recurring Costs)*, Docket No. UT-023003

TO ALL PARTIES:

The Commission entered its Thirtieth Supplemental Order in this docket on October 26, 2005. The Order, among other things, required Verizon to revise its tariffs to reflect the exclusion of rates for 2- and 4-wire feeder subloops and dark fiber loops and subloops.<sup>1</sup> The Order required the tariff revision to be filed within 30 days of the completion of the compliance phase of this proceeding.

On November 21, 2005, the Commission entered its Thirty-First Supplemental Order approving Verizon's revised compliance filing.

On December 20, 2005, Verizon filed its tariff revisions eliminating rates for 2- and 4-wire feeder subloops and dark fiber subloops. The tariff revisions are attached to this letter. Verizon requested that the tariff revisions become effective January 20, 2006.

The Commission has reviewed these tariff revisions and finds them in compliance with the terms of its Orders.

Therefore, pursuant to the terms of the Thirtieth Supplemental Order, the tariff sheets attached to this letter will become effective as filed on January 20, 2006.

Sincerely,

CAROLE J. WASHBURN  
Executive Secretary
