TO ALL PARTIES:

On September 8, 2004, the Commission entered Order No. 01, an Order Granting Request to Operate Stations at Pressures Exceeding 500 Pound Per Square Inch Gauge in the above-named docket. This errata notes and corrects an error in that Order, as follows:

On page three, paragraph 6(b)(3), the first sentence is corrected to read: "Radiographically examine 100 percent of the girth welds ~~on the 16-inch diameter pipeline~~ except welds that cannot be radiographed."

A corrected copy of the Order is attached.

Sincerely,

CAROLE J. WASHBURN
Executive Secretary
