

Hello

TS 042184 ,regarding permitting private foot ferry operations from
Harper
Dock in South Kitsap .

I believe that the Utilities and Transportation Commission should delay
the
issuance of certification to private operators until a through hearing
is
completed. There are many differences of opinion on the issue of private
vs.
state operated passenger only ferries and it is only right that open
discussion be held to weigh pro and cons of these issues.

thank you
