

## **2011 INTEGRATED RESOURCE PLAN APPENDICES**

# Appendices

### *2011 Integrated Resource Plan*

|  |      |
|--|------|
| A. Public Participation.....                       | A-1  |
| Integrated Resource Planning Advisory Group.....   | A-2  |
| Conservation Resources Advisory Group .....        | A-5  |
| B. Legal Requirements and Other Reports .....      | B-1  |
| Regulatory Requirements .....                      | B-2  |
| Report on Previous Action Plans .....              | B-6  |
| Other Reports .....                                | B-12 |
| C. Environmental Matters.....                      | C-1  |
| Washington State Regulatory Consideration.....     | C-1  |
| Regional Regulatory and Policy Issues .....        | C-3  |
| Federal Intervention .....                         | C-7  |
| D. Electric Resources .....                        | D-1  |
| Existing Resources .....                           | D-2  |
| Resource Alternatives .....                        | D-19 |
| E. Regional Transmission Resources.....            | E-1  |
| Introduction.....                                  | E-1  |
| The State of PSE's Current Transmission System ..  | E-2  |
| Regionally-Based Transmission Efforts .....        | E-6  |
| Outlook.....                                       | E-13 |
| F. Financial Considerations.....                   | F-1  |
| Resource Specific Financial Considerations .....   | F-1  |
| Other Financial Considerations .....               | F-4  |
| G. Integration of Variable Energy Resources ..     | G-1  |
| Overview .....                                     | G-1  |
| Variability and Uncertainty of Wind Output .....   | G-4  |
| Characteristics of Variable Energy Resources ..... | G-6  |
| Integration of Hopkins Ridge Wind Project .....    | G-11 |
| Ancillary Services .....                           | G-12 |
| Managing Ancillary Services .....                  | G-16 |

## **2011 INTEGRATED RESOURCE PLAN APPENDICES**

---

|   |             |
|---|-------------|
| H. Demand Forecasts .....                                 | H-1         |
| Methodology .....   | H-1         |
| Key Assumptions .....                                     | H-3         |
| Electric and Gas Demand Forecasts .....                   | H-7         |
| Load Forecasting Models.....                              | H-18        |
| I. Electric Analysis .....                                | I-1         |
| Methods and Models .....                                  | I-1         |
| Data .....  | I-21        |
| J. Gas Analysis .....                                     | J-1         |
| Analytical Models .....                                   | J-1         |
| Analytical Results .....                                  | J-7         |
| Portfolio Delivered Gas Costs – Avoided Costs ....        | J-19        |
| K. Demand-side Analysis<br>(The Cadmus Group, Inc.) ..... | CD enclosed |
