**Subject: Medians on West Side of TEMCO Crossing**

Ms. Hunter:

This letter is a follow up to the letter sent to you on May 9, 2016 with subject "Addition of Medians to Construction Scope on West Side of TEMCO Crossing".

BNSF performed some additional research to find the final agreed design for the new Toteff Road and Hendrickson Drive crossings between all parties. BNSF found that the petition and design that was submitted for Toteff Road did not include any medians on the west side of Toteff Road crossing. The petition and design was signed by Cowlitz County and the Port of Kalama. Therefore, BNSF will not install any medians on the west side of Toteff Road crossing.

If you have any questions or comments about the median on the west side of Toteff Road, please do not hesitate to contact us using the means provided below.
