Re: TG-200764; International Resource Management, Inc. dba WasteXpress

Dear Mr. Johnson:

On behalf of International Resource Management Inc. dba WasteXpress, Applicant in the above-captioned matter, this is to propose a restrictive amendment to WasteXpress' application for a certificate of public convenience and necessity which we believe will satisfy the interests of some, if not all prospective protestants. Subject to Commission approval, the scope of requested authority in WasteXpress' application at Section 2, Question 3 (revised November 4, 2020), as referenced in the November 6, 2020 Docket No. TG-200764, should be amended as follows:

Specialized solid waste collection (as a Class C company) throughout the State of Washington, collecting hazardous waste, dangerous waste and special waste (e.g., any solid waste that requires additional processing, special handling, special packaging, special transportation and/or additional disposal techniques due to its quantity, concentration, physical or chemical characteristics or biological properties). Dropbox service may be provided for hazardous, dangerous and/or special waste only.

The above proposed restrictive amendment, eliminating as it does the previous description of "Other solid waste," etc. as noted, should satisfy the interests of various parties. Please contact
