To: Rocket

Getting to SeaTac airport from Kingston is rather challenging. My current options are to catch the Dungeness Lines which will cross the ferry to Edmonds arriving at SeaTac running only twice a day, or the Kitsap Airporter out of south Poulsbo. Both of these options require me to enlist family or friends driving me to the pickup location 10 minutes away in Kingston or 30 minutes away in Poulsbo. I would like the opportunity to take Rocket Transportation from the Poulsbo Walmart location directly to SeaTac when that works best within my travel plans understanding the cost to be significantly more but getting to SeaTac more directly. Being picked up at the bridge by Kitsap would be another option I've been begging for for years now to no avail.

Sincerely,

*Mary E Underwood*

To whom it may concern:

I tried to make a reservation with Rocket Transportation going from my home to SeaTac Airport. I live in Hansville but made the reservation for Port Ludlow thinking it was close enough. Rocket did not agree saying they could pick me up in Port Ludlow but Hansville was in Kitsap Airporters service area. I fail to understand how Hansville is in their service area if they don't come anywhere close to even Kingston. I should be able to take any service I desire to pay for.

Sincerely,

A handwritten signature in blue ink, appearing to read "Carl", with a long horizontal flourish extending to the right.

Letter of Support

August 13, 2022

To whom it may concern:

Living next to the Hood Canal Bridge I see Rocket zoom by several times a day. I'd like to take them to the Tacoma Amtrak Station but they say Kitsap Airporter is the provider from my area. Kitsap does not go to Amtrak. Please let me take Rocket without having to drive into Port Ludlow.

Sincerely,

Richard Hickson
