NOTICE CORRECTING ORDER 01

Re: In the Matter of Avista Corporation d/b/a Avista Utilities, Renewable Energy Target Process Report Under RCW 19.285.070 and WAC 480-109-210, Docket UE-230405

TO ALL PARTIES:

On August 24, 2023, the Washington Utilities and Transportation Commission (Commission) issued Order 01 Approving Renewable Energy Target Reporting Requirement for 2023 (Order 01). It has come to the Commission's attention that Order 01 incorrectly stated the date for filing a report listing certificate numbers in Western Renewable Energy Generation Information System for every megawatt-hour and renewable energy credit that Avista retired to meet the January 1, 2023, target and requesting a determination of compliance with its 2023 renewable energy target as June 1, 2024. The correct date is June 1, 2025. A corrected order 01 is attached.

Additionally, Findings and Conclusions 7 and 8 have been updated and expanded to align with the language in WAC 480-109-210(4) and WAC 480-109-210(5). Those paragraphs are hereby corrected as follows:

- 16 (7) Pursuant to WAC 480-109-210(4), Avista must post and maintain all RPS Reports on its website, and provide a report to any person on request, within 30 days of the date of this Order.
- 17 (8) Pursuant to WAC 480-109-210(5), Avista must provide a summary of its RPS Report to its customers, by bill insert or other suitable method, within 90 days of the date of this Order.
