Subject: Settlement Agreement PG-150120

Dear Mr. Mayo,

This submission is intended to comply with Section V(B)(1)(d)(i) of the Settlement Agreement approved in Docket PG-150120.

In accordance with the Settlement Agreement, we are providing an updated timeline/plan which includes the original 116 segments and the additional segments per Section V(B)(1)(a) and (d), respectively. We propose that this updated timeline/plan replace any previously-submitted plan associated with the original 116 segments so that both Cascade and Staff have only one point of reference, going forward, for all segments operating above 60 psig.

Additionally, we have validated the five segments as required by Section V(B)(1)(b) of the Settlement Agreement. The segments are included in this submission.

We look forward to working with Staff to finalize an Amended Settlement Agreement and will be available to schedule our initial meeting at your earliest convenience.

If you have any questions, please do not hesitate to contact me directly.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Eric Martuscelli", is written over a light blue horizontal line.
