Cc Twitchell, Jeremy (UTC);  Bill Henry

A useful idea to incentivize IOUs to non-capitalized projects.

**Subject:** Re: Mar. 10 workshop

David,

EQL will not be at meeting Mar. 10, but will be on phone for portions.

Regarding framework,

We recommend a WUTC-approved, stakeholder-led distribution planning working group (DPWG) to craft the framework and an implementation plan, including a competitive solicitation process for T&D deferral RFPs and procurement.
