Subject: response to WUTC's 4/1/99 notice on railroad company operations r ulemaking

Thank you for the opportunity to comment on the rule making process for railroad company operations (WUTC Docket No. TR-981102). As a municipal jurisdiction which has to coexist with BNSF's passenger and freight rail operation and Amtrak's intercity passenger rail service along our downtown waterfront area, we totally support any improvements in the rules and or processes which require the railroad companies to seriously consider impacts to the local community for any changes in their service.

We would like to be on your mailing list for future information regarding this rule making and therefore request also to be included on the Docket No. UG-990294 mailing list.

We are also interested in attending your workshop on May 27th. Could you please e-mail us further details on the agenda for that meeting?

Thank you for your assistance.

Paul Mar
Community Services Director
