30 1. I am a Regulatory Consultant with the Pricing and Cost Service Group for
31 Puget Sound Energy, Inc. ("PSE"), with primary responsibility for the planning and
32 development of analyses, reports and proposals in support of PSE's electric and gas rate

1 4. At page 536, line 20, through page 537, line 6 of the transcript, I accepted
2
3 subject to check that the electric conservation figures that are the basis for PSE's proposed
4
5 conservation phase-in adjustment include reduced electric usage or savings that are due to
6
7 electric to natural gas fuel switching. Upon check however, PSE did not have a fuel
8
9 conversion program during this proceeding's test year. As such, electric to natural gas fuel
10
11 conversion does not affect the electric conservation savings used to calculate PSE's
12
13 conservation phase-in adjustment.
