March 25, 2011

Commissioners: As a frequent user of Whidbey SeaTac Shuttle, and as as the leader of an organization that benefits from the Shuttle's generosity and commitment to community development on Whidbey Island, I urge the Commission to allow them to recover the rising costs of fuel, via a fuel surcharge. It is inconceivable to me that, given the Shuttle's razor thin profit margin, they would be unable to add an affordable surcharge to their pricing, in order to remain the most reliable Island-to-Airport service on Whidbey

Further, on numerous occasions, Whidbey SeaTac Shuttle has generously provided free shuttle service to the Saratoga Chamber Orchestra, in support of our mission to provide quality classical music to the entire Island. We are fortunate beyond measure to be the beneficiaries of the Shuttle's generosity and commitment to Community. I fear this service will cease, if the Shuttle is compelled to absorb these continually rising costs.

I urge the Commission to grant Whidbey SeaTac Shuttle the right to recoup these expenses via a surcharge.

Respectfully,

Legh W. Burns
Artistic Director
Saratoga Chamber Orchestra
Langley, Washington.
