Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposal revises the existing rule to require local exchange carriers to distribute white pages telephone directories only to customers who request them. The proposal would minimize the burden on regulated carriers to print and distribute directories and would substantially reduce the amount of waste resulting from disposal of unwanted printed directories.

The Supplemental CR-102 amends the proposal so that carriers have the flexibility to comply with their obligation to make basic directory listings available to their local exchange customers either by providing those customers with access to electronic listings and making printed directories available to customers who request them, or by distributing printed directories to all customers except those who request not to receive them.

Reasons supporting proposal:

Consumers primarily rely on the Internet as a resource for telephone number listings, rendering unnecessary a requirement that companies distribute printed white pages directories except to those customers who request them. Eliminating distribution of unwanted directories also enhances environmental stewardship in cooperation with cities and municipalities by reducing the volume of paper waste that must be processed and disposed of.
