The Chelan Valley stands to benefit with the addition of a daily, year round boat service to and from Stehekin. I live in the Chelan area and speak often with tourists who are discouraged from a trip to Stehekin because of the current limited schedule. My husband mentioned to me that it took us 8 years after moving here to get to Stehekin and the limited boat schedule was a big factor. Tourism aside, realistically having a small, fast service with an alternate schedule operated year round has been a need for residents that hasn't been filled. Hikers on the PCT, through the National Park need better access to Chelan for supplies and the new service will finally accommodate them better. The addition of boat service provided by Backcountry Travels PLC between Stehekin and Chelan including whistle stops has been long needed and will only compliment service by The Lake Chelan Boat Company. My father in law used to always say that it is better for business to have a gas station on more than one corner. His point was that providing more service only increases business for everyone. Thank you for considering my opinion.
