All these services are available through local service providers where you can expect a high level of customer service at competitive prices.

Line Extension Policy offers connection options

On March 28, 2011, a **Telecommunications Line Extension Policy** for fiber-optic connections was approved by PUD commissioners. Homeowners and businesses can choose to pay additional costs themselves after the PUD makes an initial investment of \$1,500 per connection. **Read the news release.**

Fiber Grant Build-Out Project

After careful analysis of higher costs and difficult schedules, Chelan County PUD commissioners, on April 11, 2011, authorized withdrawal from participating in a federal grant program that was intended to extend fiber-optic service to more rural areas of the county. **Read the news release** and **customer letter**. For questions, **email the fiber team** or call (509) 661-4151.
