Re: Supplemental letter to Vancouver Rate Center Numbering Waiver

Dear Mr. Danner:

On December 7, 2011 CenturyLink made a supplemental filing to its Vancouver Rate Center Numbering Request, initially filed on November 28, 2011. The supplemental filing reflected certain changes to the initial numbering request, based on updated information from the customer.

In this filing, consistent with the updated information from the customer, CenturyLink clarifies that upon approval, it will provide one block of 1,000 numbers from a new NXX Code immediately to the customer, while the balance of nine blocks, 9,000 numbers, will be reserved by the Pooling Administrator, to be made available to the customer upon request in accordance with their stated requirements. Coincident with subsequent assignments of a number block or blocks to the same customer, CenturyLink will notify the WUTC staff of such activity.

Sincerely,

Maura Peterson
