Re: Docket no. UT-120590

Dear Ms. Wyse:

Per our phone conversation today, I hereby resubmit a revised filing in Docket No. UT-120590 that was previously submitted on April 27, 2012. The purpose of this resubmission is to protect confidential information that had been submitted in error. This information is confidential per WAC 480-07-160 because it contains private, valuable commercial and other confidential financial information of the Confederated Tribes of the Colville Reservation. In addition, the release of this information was not authorized by the Colville Tribes nor did the Colville Tribes have prior knowledge of it. Further, this confidential information had been submitted without the legal consent of the Colville Tribes.

Attached is a redacted version that shows that the confidential information begins at page 17 of the original submission. Please treat the unredacted previously filed version as containing confidential information per WAC 480-07-160 from page 17 on. Thank you for all your help in this matter.

Sincerely,

Melissa Campobasso, Attorney
