I am sending the payment so that I do not incur any additional ridiculous unfair fees.

There are too many false statements in the letters I have received from your office. What is the process to appeal this and for me to use legal counsel? I am not verse in law and this is unjust against a small business. I have been in the internet industry for 20+ years and I still don't 100% trust that technology does exactly what it is intended to do. I submitted my paperwork on time. Your office didn't even call or send a letter until AFTER it applied the fee. Within 5 minutes of opening the letter I called, within an hour I sent the missing files that I uploaded once before.
