Re: Docket TG-220140; Rulemaking to consider changes and improvements to solid waste rules related to customer notice requirements, electronic filing and billing, low-income residential rates, missed pickups, residential customer deposits and fees, and other ministerial changes

Dear Executive Director and Secretary Maxwell:

Waste Management of Washington, Inc. (“WM”) appreciates this opportunity to respond to the Washington Utilities and Transportation Commission’s (the “Commission”) April 28, 2022, Notice of Opportunity to File Written Comments (“April 28 Notice”) in the above-entitled docket. The April 28 Notice requests stakeholder input on a wide range of topics, and it is not clear what, if any, rulemaking may follow.

Attached as Exhibit A are WM’s responses to the specific inquiries contained in the April 28 Notice.

Note that certain inquiries request confidential or proprietary information, are overly burdensome given the time frame for responding, or ask for information older than routinely retained under Commission requirements and WM’s records retention policy. In addition, WM has only responded to the Commission Staff’s inquiries in so far as they apply to the Commission-regulated jurisdictions that WM serves.

WM looks forward to participating in the Commission's future workshop on these topics, indicated in the April 28 Notice.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jason Rose", is written over a light gray rectangular background.

Jason Rose, President
Waste Management of Washington, Inc.
