Disposal/EGH, Lakewood Refuse Service; Pacific Disposal, Butlers Cove Refuse Service &
 Rural Garbage, and Pierce County Refuse.

On August 5, 2024, DTG Enterprises Inc. d/b/a DTG Recycle (DTG) filed an application for a solid waste carrier certificate with the Washington Utilities and Transportation Commission (Commission).

On August 8, 2024, DTG filed an replacement application (Application) with the
Commission. In its Application, DTG notes that it "wishes to operate throughout the state using
various regional landfills for disposal of residual wastes" originating from its material recovery
facilities (MRF) "after sorting and processing recyclable materials." DTG submits that it "only
seeks a solid waste license for hauling residual materials from our sorting process."

DTG notes that "[c]urrent operations are concentrated in the greater Puget Sound region, Tri-Cities region, and Yakima County region." Yet DTG accepts construction and demolition waste "from commercial and industrial generators throughout the State."

Despite the fact that the Application represents a replacement filing, DTG does not
provide a proposed tariff or a map of its service area.

This protest is submitted on the following grounds:

18 Waste Connections, through its various regulated subsidiaries is the holder and operator 19 of Solid Waste Certificate Nos. G-9, G-11, G-48, G-51, G-75, G-87, G-88, G-89, G-98, G-101, 20 G-154, G-173, and G-253. Due to the volume of certificates, as representative examples of the 21 various G Certificates, attached as Exhibit A are the certificates of Murrey's Disposal, Inc. dba 22 Olympic Disposal G-9, and Waste Control, Inc. G-101. All other certificates of the Waste 23 Connections Companies referenced above will be produced as exhibits at hearing. As said 24 exhibit indicates, Waste Connections currently holds authority in conflict with and which 25 overlaps the applied-for solid waste authority as noted above. By way of example, Waste

Connections holds Certificate No. 9, which allows its subsidiary Murrey's Disposal Company, Inc., d/b/a Olympic Disposal to collect garbage and refuse in portions of Pierce County and Waste Control, Inc., Inc holds a solid waste certificate to serve most of Cowlitz County and other territory.

Waste Connections therefore alleges it has a direct, cognizable interest in this proceeding adverse to this application. Waste Connections holds G-certificates for solid waste collection services in much of DTG's proposed service territory.

II.

1

## III.

Waste Connections is ready, willing and able to provide all of the solid waste collection and transportation services sought by DTG within the scope of its authorized operations in its Amended Application. Waste Connections has invested and continues to invest substantially in serving its solid waste collection customers in its service territory

IV.

Waste Connections alleges that DTG cannot establish its fitness to conduct operations or its past compliance with Washington law and rule. DTG and its predecessors in interest have a history of violating Commission rules, as DTG admits in its Application. DTG fails to even provide supporting documents with its application as required by both RCW 81.77.040 and WAC 480-70-091.

Waste Connections further alleges that DTG cannot establish that the public convenience and necessity require its proposed service or that its proposed service is consistent with the public interest. DTG is seeking to cut costs by providing "in house" hauling from its MRFs rather than paying tariff rates for regulated solid waste collection companies. There is no discernable public benefit.
