Dear Director Killip,

Enclosed for filing please find the Closeout Report of Puget Sound Energy (PSE) for the 2021 All-Source Request for Proposals (RFP). The Closeout Report summarizes responses to the 2021 All-Source RFP and is being filed in Docket UE-210220 within 90 days of the conclusion of the RFP process, as required by Washington Administrative Code 480-107-145(2).<sup>1</sup> In addition, PSE will post the Closeout Report on its public RFP webpage.<sup>2</sup>

PSE executed five contracts as a result of the 2021 All-Source RFP: two for wind resources, one for a solar resource, and two for battery storage resources. These new contracts will add 547 megawatts (MW) of renewable capacity and 400 MW of dispatchable capacity to PSE's generation fleet.
