**Re: 2023 Electric Progress Report on the 2021 Electric IRP
UE-200304**

Dear Ms. Maxwell:

Pursuant to the Washington Utilities and Transportation Commission Integrated Resource Plan (“IRP”) rules under WAC 480-100-625(4), attached for filing is Puget Sound Energy’s (“PSE”) 2023 Electric Progress Report (“Report”) on the 2021 Electric IRP. The attached Report, along with individual chapters, appendices and data files are posted at <https://www.pse.com/en/IRP/Current-IRP-Process> and available for download. Confidential work papers and data files will be submitted under separate cover.

PSE developed the Report with input from interested parties, over the last 15 months, resulting in substantive changes and improvements. This feedback informed a diverse portfolio of resources that considers equity, grows our distributed energy resources, incorporates climate change, addresses the risks of reliance on alternative fuels such as hydrogen and biodiesel, and keeps us on a path to meeting our Clean Energy Transformation Act obligations.

If you have any questions about the information contained in this filing, please contact Phillip Popoff, Director, Resource Planning Analytics, at (425) 462-3229. If you have any other questions, please contact me at (425) 456-2142.

Sincerely,

/s/ Jon Piliaris
