Re: EON Telecom  
Docket UT-160374

Dear Mr. Johnson:

Please accept this as a cover letter, pursuant to the FCC's Order granting Numbering Authorization to EON Telecom as a VOIP Provider, with the ability to order our own TN Resources.

Please accept cover letter along with the template as a modification and expansion of our previous 30 day Notice, submitted to the Commission on 9/21/2022

In the previous Notice, Eon Telecom, with it's OCN 839J had requested access to telephone numbering resources limited only to the Rate Center of Seattle in LATA 674 with the NPA 206.

Please accept this new Notice to allow for future expansion in the ordering process of telephone numbering resources throughout the entire State of Washington. This would include all three LATAs (672, 674 & 676) as well as all the NPAs, present and future in whatever Rate centers within these NPAs are available at the time if the new orders.

In addition, this will also be predicated on any NPA's in jeopardy or any shortage of available Rate Center blocks in the Pool as well the semi-rural rural Rate centers with a limited population.

EON Telecom seeks to make sure we are in compliance with the Administrator's of the UTC, NANPA and the Pooling Administration's guidelines, limitations and or agendas.

In addition, please also find another copy of Eon's FCC Grant as well as the 30 day Notice template, attached.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Maduno", with a long horizontal flourish extending to the right.
