Dear Commissioners,

It would make me proud of Washington State Government to facilitate a conversion to renewable power resources and requiring PSE to substitute its planned natural gas generator for renewable options would be a marvelous step. PSE is full of talented people; I'm sure they can do the job well with the proper encouragement.

Sincerely,
James W. Hauser
21713 Highland Av. SW
Vashon Island, WA 98-070

I am a PSE ratepayer.
