Subject: Rulemaking on Emergency Information

rec

Gentlemen

As a non-facilities based provider, we lease lines one-by-one from Qwest or Verizon as needed to resell to individual residential customers. As a result, we are totally dependent on Qwest and/or Verizon to deal with network operations and emergencies. Please consider whatever plans and emergency information they file on this matter to be our plans and numbers as we would simply have to refer you to them for information and assistance. If there are any questions, please contact Sharon Schroll at sharonpsi@yahoo.com. Thank you.
