Summary of Change:

On April 13, 2006, Qwest is providing notification of planned updates to the Wholesale Product Catalog that include new/revised documentation for TRRO Compliance and Transition Procedures. The redline version of the PCAT will be attached with this notice and can also be found at the Customer Notification Letter Archive site located at <http://www.qwest.com/wholesale/notices/cnla/>. This material will become effective on April 14, 2006.

Updates are associated with providing additional language for clarification by providing a definition of order activities. In the Description section under Non-Impairment Criteria a correction will be made by removing the TRRO - Commingling and Unbundled Network Elements - Combinations (UNE-C) link from the list of products and services because it is a business procedure. Also Qwest is providing additional language which describes conversions "as is" and conversions "as specified" for transitioning TRRO impacted circuits from UNE to Qwest's Private Line or Special Access Tariff Services.

Actual updates will be found on the Qwest Wholesale Web site at this URL: <http://www.qwest.com/cgi-bin/wholesale/trrologin.cgi>
